ARMY TRAINING FOR ALL FAVORED BY COMMITTEE

Military Committee Favors Universal Training Bill By 11-9 Vote.

BILL WILL INCLUDE CLAUSE TO PROVIDE FOR NEW POLICY

Ohio Congressman Votes Against Favorable Report on Measure.

Washington, Feb. 20.—The principle of universal military training as a part of the nation's future military policy was approved today by the house military committee by a vote of 11 to 9.

This means that the committee's army reorganization bill will contain a general training provision. Details have not yet been worked out but it was decided that the training proposal would become effective on July 1, 1921.

The vote in the committee was along bi-partisan lines three Democrats joining with eight Republicans in putting the training plan through.

Four Republicans and five Democrats opposed it. Kearns, of Ohio, Republican, and Fields, Democrat, of Kentucky, cast their votes in opposition.

PLUCKY GIRL MAKES ARREST

Follows "Guest" To Columbus and Recovers Stolen Clothing and Turns Girl Over to Police.

Officer James Gorman left for Columbus today and will return with Ruth Roseburg, arrested in Columbus yesterday by a Newark young woman and taken to police headquarters where she was accused of stealing wearing apparel.

Some days ago Miss Roseburg, who is also known as Schoenberger, visited the city and became acquainted with Miss Maecella Sullivan, a waitress at the O'Neil restaurant. The latter invited the stranger to share her room with her that night as she claimed she had no place to go, but was expecting to secure a position in a day or two. The Newark girl left her newly found friend calmly alone but when she returned from her duties that afternoon the girl and part of Miss Sullivan's wardrobe was missing.

Miss Sullivan started for Columbus, alighted from the car and went to 525 1/2 West State street, where she suspected the Roseburg girl might be and found her there. She ordered her to dress and accompany her and found a traveling bag packed with belongings taken in Newark. She marched the girl to the police headquarters and turned her over to the authorities and Officer Gorman will return her to this city. Her hearing will take place in municipal court later.

DELAY HANGING WHILE MURDERER IS QUIZZED

Chicago, Feb. 20.—John "Smiling Jack" O'Brien, 21 year old, gunman, was hanged in Cook county jail this morning for the murder of Patrolman Richard Burke. The execution was delayed nearly an hour when a last minute request was received from the grand jury, asking to see O'Brien. The jurors remained in the death chamber and watched the hanging.

O'Brien was convicted of shooting the patrolman in a gun battle in a saloon. He declared in court that he was guilty, but three days ago claimed that he had pleaded guilty when the late "Mossy" Enright offered to get him off with a two year sentence if he would accept the blame to shield a relative of Enright. The pardon board and Lieutenant Governor Oglesby refused to grant a reprieve to investigate the story.

BURGLARS SEARCH TWO NEWARK HOMES

Residents of Madison Heights phoned police headquarters this morning that windows in the homes of Charles McDonald, at present in Columbus, and C. D. Young, general manager of the Central Refractory company, who is believed to be in the city, were open and they believed some one had been in the houses.

Officers William Hinger and James Donnelly were assigned to make an investigation and found that both houses had been thoroughly ransacked and some over from cellar to attic. Drawers and closets were opened but although there was considerable silverware in sight it is believed that nothing had been disturbed.

Chief Sheridan is of the opinion that it was the work of amateurs who knew the families were absent and that they were looking for money and a possible chance that they might find some "wet goods" about the place.

COMPLETES CONSTITUTION

Jacksonville, Fla., Feb. 20.—The sub-committee of the unification commission of the Methodist Episcopal church and the Methodist Episcopal church South, has completed its work here of editing the proposed constitution for the united church which will be presented to the general conference of the two churches at Des Moines next May.

NEWARK BOY ATTEMPTS TO SAVE EXPLORER'S LIFE

The life of Rear Admiral Robert E. Peary probably was prolonged several months by the generous action of a former Newark man, Robert Ashley, who submitted to an operation for the transfusion of blood into the veins of the Arctic explorer several months ago when the scientist's life was despaired of.

The admiral's condition was very serious and physicians at the Washington naval hospital where he was a patient decided that transfusion was the only thing that would save his life. Ashley permitted a pint and a half of his blood to be diverted to Peary's veins. The Newark man received a fine watch from the admiral as an evidence of his appreciation.

Ashley was a former high school and Denison athletic star. His parents are now living in Chillicothe.

ROBT. E. PEARY POLE DISCOVERER CALLED BY DEATH

Naval Officer, Arctic Explorer and Scientist Succumbs to Illness of Several Years.

Washington, Feb. 20.—Rear Admiral Robert E. Peary, retired Arctic explorer and discoverer of the North Pole, died at his home here today from pernicious anemia from which he had suffered for several years. Arrangements for the funeral have not been completed but he will be buried with full naval honors.

Admiral Peary submitted to a blood transfusion at a hospital here ten days ago. He later was removed to his home and his condition then was reported as

ROBERT E. PEARY.

somewhat improved. He gradually grew weaker, however, and died early this morning. Dr. H. F. Strine, the admiral's physician, disclosed that the transfusion this month was the 35th to which Admiral Peary had submitted within two years.

Admiral Peary was 64 years old, and entered the navy as a civil engineer on October 26, 1881. He was assistant engineer, Nicaragua ship canal, under government orders, 1884-85. Returning to the United States he became interested in Arctic explorations and in 1891 he became his first trip to the north to make a reconnaissance of the Greenland inland ice cape east of Disco Bay.

Two years thereafter he was engineer in charge of the Nicaragua canal surveys and invented rolling lock gates for the canal, but the lure of the Arctic was on him and he again turned northward. In June, 1898, he led his first big Polar expedition, being head of the Arctic Expedition Academy of Natural Science, Philadelphia.

Admiral Peary made seven expeditions into the Arctic before he finally was successful in reaching the pole, returning in 1909 to find that Dr. Fred Cook was being treated as the discoverer.

In 1915 he was promoted to the rank of rear admiral in the navy, and given thanks of congress by a special act. Turning his attention to aviation, he became a strong advocate of aircraft development by the government and time and time again urged aerial patrols in this country and especially during the war period.

JURY QUICKLY JUSTIFIES KILLING OF ITALIAN

Hammond, Ind., Feb. 20.—It took a Hammond jury two minutes yesterday to acquit Frank Pedroni, an Italian, who admitted he killed Frank Petrich, Desoria, a naturalized citizen for 17 years, had an argument over, and said Italian claims with Petrich, who said to have been an unprincipled "red" during the argument Petrich said: "To hell with the United States."

Pedroni shot him dead.

DETROIT TIGERS IN CAMP

NEW YORK G. O. P. WRITES PLANK FOR PARTY PLATFORM

Unofficial Convention Takes Rap at Democratic Government.

WANT TREATY RATIFIED WITH RIGHT TO WITHDRAW CLEAR

Brands League of Nations As "Gravely Defective" and Raps Article 10.

New York, Feb. 20.—Carrying out without change the program mapped out by party leaders, the unofficial Republican state convention closes today with the adoption of a platform bitterly attacking the national administration and with the recommendation that United States Senators Wadsworth and Cady and Nathan L. Miller and William Boyce Thompson be elected delegates at large to the national convention at the spring primaries.

The convention was not marked by a single discordant note from the majority. Root called it to order as temporary chairman until the delegates filled out of unheated Carnegie Hall up on Johnson street just before 1 o'clock.

Admiral Lord O'Brien of Buffalo, who was elected permanent chairman, delivered a brief address in which he caustically criticized the Wilson administration.

Twenty women, including Mrs. Florence Knapp of Syracuse, who was candidate for delegate at large until former Judge Miller, also a resident of Syracuse, was made a member of the "big four" when Mr. Root declined to serve, were named as honorary vice chairmen.

Concerning the League of Nations and radicalism, the platform says: "We favor the immediate ratification of the pending treaty of peace with such distinct reservations and declarations as shall make it clear to all the world that the United States retains its unconditional rights to withdraw from the League of Nations on proper notice."

"Article X of the covenant for a League of Nations, in its original form, cannot and should not be ratified by the senate or accepted by the people of the United States."

"We believe that the proposed covenant for a League of Nations is gravely defective in that it attempts to substitute discussion instead of the rule of law, for force in the settlement of international differences."

"The chief enemy of democracy based upon universal suffrage and majority rule, no longer the arbitrary government of a monarch or a hereditary aristocracy but the cruel and relentless domination of a class."

FATHER SENT TO JAIL FOR NEGLECTING FAMILY

William Martough of Granville was brought into juvenile court yesterday afternoon by Probation Officer John Dwyer on the charge of non-support of two minor children, girls aged 14 and 7 years. Martough has not been caring for his home and was turned out of his home at 10 o'clock yesterday morning. He was sentenced to 30 days in the county jail and to pay the costs in the case and the two little girls were taken to the children's home at Columbus and will have care and education. His wife will go to the home of relatives in Alexandria.

FIREWORKS BLAST INJURES 3 GIRLS

New Castle, Pa., Feb. 20.—Three girls were injured and three small buildings of the Cont. Powder company were burned here today following an explosion of fireworks caused when a stove was upset in one of the buildings, and fire spread to the others. The loss was estimated at \$5,000. Six girls ran home after the explosion and it was first reported that they had been killed. The injured employees were burned about the face and arms.

LEASE COUNTY LAND FOR OIL DRILLING

ABOUT TENTATIVE PLATFORM

New York, Feb. 20.—Adoption of a platform and election of delegates and officers is the program for the unofficial Republican state convention today. The convention got under way last night when Chas. Root, temporary chairman, delivered the keynote speech in which he attacked the two-party national administration and outlined a proposed platform for the party's guidance.

ITALY KNOWS NOT PEACE THOUGH WAR IS ENDED

Pictures show militiamen guarding post office at Rome, above, and militiamen and civilians guarding railroad station at Milan.

General arrest throughout the country and Gabriele D'Annunzio's action in taking Fiume in defiance of his own government has kept Italy in a turmoil ever since the world war ended. Troops are being used in various cities to prevent or quell outbreaks, strike riots and guard public buildings.

CREE-BECKER PLANT TO START AT ONCE; BIG DEMAND FOR PRODUCT

New Industry In East Newark Will Begin Operations Monday—Great Activity Shown In All Oil Fields As Demand For Fuel Oil Grows.

In order to meet the heavy demand for oil machinery and oil tools the Cree-Becker Oil Tool company will start work the first of the week on the installation of the repair department of their plant here.

The previous plans of the company had not been for the immediate operation of the plant, but the market is so heavily crowded with orders for oil tools that the company felt the need of starting work immediately.

A steel building 77 by 140 feet will be erected for manufacturing purposes. In this will be installed 6 steam hammers, 2 drop forges, 9 lathes and many other machines used in the work. The new buildings will house the oil tool manufacturing plant and the blacksmith shop.

COLUMBUS RADIO WOULD TALK WITH NEWARK STATIONS

W. L. Greener, district secretary of the Newark A. M. C. yesterday received from Columbus by mail a wireless message from a friend in St. Louis who transmitted him by his own apparatus to the station of M. F. Mellowell, of Columbus.

In a letter accompanying the radio message, Mellowell asked Greener to have Newark radio operators in call his station in Columbus as he frequently "picks up" messages for Newark.

Mellowell, who is superintendent of the Columbus city garage, has one of the best equipped stations in central Ohio having made nearly all the apparatus himself. The wireless call is "K E C" and is called Greener that he wants to hear him in some of the Newark stations.

PALMIST ARRESTED ON WOMAN'S AFFIDAVIT

Mary Williams was arrested by Officer Howard "Brooklyn" Williams last evening and a charge of practicing palmistry and fortune telling was placed against her. The city ordinances forbidding the practicing of those arts under heavy penalty.

The affidavit against the Williams woman was filed by another woman who alleged that the fortune teller agreed to bring her husband back to her upon payment of a \$5 fee. The money was paid but hubby failed to show up and the fortune teller stated that the charm failed to work.

Miss Williams gave her residence as South Second street but Chief Sheridan stated that several of the women are operating in various parts of the South End and keep moving. At one place several young girls have been harbored and the chief issued orders last evening to bring in any one who is collecting revenue from palmistry reading or the telling of fortunes.

The Williams woman was arranged in municipal court this afternoon before Judge F. A. Bolton and upon entering a plea of guilty to the charges was fined \$10 and the costs.

IRISH RAIDERS CLASH WITH KERRY POLICE

West Kerry, Ireland, Feb. 19.—After a three hour siege, in which hand grenades, rifles and revolvers were freely used, an attack on police barracks by armed raiders was repulsed here early today. One police officer was wounded and it is believed three raiders were struck by bullets.

The raiders made extensive preparations for the attack, having blocked all roads with fallen trees and barbed wire and having dug deep trenches to check the approach of military motor lorries. Telegraph and telephone wires were cut over a radius of 15 miles about the place. One end of the barracks was demolished by the explosion of a bomb.

It is believed the early morning disturbance was part of an organized plan for a simultaneous attack upon the police in different parts of the city. The plan was frustrated for the most part by arrests of suspicious persons, many of whom were found to be heavily armed.

SHERIFF WAS READY TO STOP COCK FIGHT

Sheriff E. A. Bryan received a hint that a cock fight was to be "pulled" at Bruno last night and securing a half dozen deputies the sheriff with his posse left on automobiles for that place. It proved to be a false alarm for when the sheriff arrived there was nothing doing and the residents had all retired for the night.

U. S. POSITION ON ADRIATIC IS MADE CLEAR BY WILSON

Officials Believe Further Argument On Subject Is Closed.

WILSON FEELS U. S. CANNOT ACCEPT ACTION OF PREMIERS

Terms Under Secret Treaty With England Also Unacceptable.

Washington, Feb. 20.—The position of the American government on the Adriatic settlement has been made so plain in President Wilson's reply to the allied note that administration officials believe the way to further argument on the subject virtually has been closed.

It was said today, however, that by this they did not mean that the door to further exchanges had been shut. On the contrary a reply to the president's latest communication is anticipated and a final agreement between the great powers on the vexing question expected.

The president throughout the exchanges now in progress is understood to have made it perfectly clear that the United States cannot accept the settlement reached by the allied premiers and concurred in by Italy and which was made the subject matter of the ultimatum to Jugo Slavia last month. He also said to have made it equally clear that enforcement of the Adriatic terms of the secret treaty of London, negotiated before this country entered the war, would be wholly unacceptable to the United States.

The president's note still is in the hands of Acting Secretary of State, and it was said yesterday for study, and it was said to the state department that it would not be despatched today. It probably will be put on the cables tomorrow.

It was stated officially that the question of giving publicity to the exchanges would wait on the delivery of the president's note and the acquiescence of the other governments.

MUST FILE LIST OF \$1000 MEN

Employees Required to Report All Employees Drawing That Sum or More, to Internal Revenue Department.

C. F. Schwerin, internal revenue agent of Columbus is located at the Newark postoffice with offices in the basement where he is advising local men in regards to their income tax returns. According to his present plans he will remain here until March 15 at which time all tax returns must be in. He appeals to the people of Newark not to delay making their returns early. His office hours are from 12 and 4 p.m. to 4 p.m. and are available at these times to help and advise in the making out of returns.

Newark business and industrial concerns employing labor of any character must file a report of all of their employees earning more than \$1000 a year, salaries to be computed upon the basis of the calendar year ending December 31, 1919, according to Mr. C. F. Schwerin, Internal Revenue Collector. Also all persons having \$1000 or more in rents, stock, bonds, real estate, or other transactions involving this amount must report the same. Information secured through this source will be used in cases where parties fail to file income tax returns and there is reason to believe that they should.

WOMEN SWIMMERS ENTER TITLE CONTEST

Cleveland, Feb. 20.—Eight of the best known women swimmers in the country are entered in the national junior 100 yard championship for women, which will be held here tonight under the auspices of the American Athletic Union. Most prominent are the Smith sisters, Eleanor and Ruth of New York, and Marie Curtis of Chicago. Five other events are on the program.

Entries in a 100-yard free style race and a back stroke handicap for women include Ethelreda Biletyr, holder of several records, Charlotte Boyle, of New York, and the Smith twins.

The Smiths and Marie Curtis are also among those to compete in a fancy diving contest.

A 100-yard dash for men, in which Hal Volmer of New York, will compete, and a fancy diving contest for men complete the program.

NEW RECORD SET IN BOWLING ENTRIES

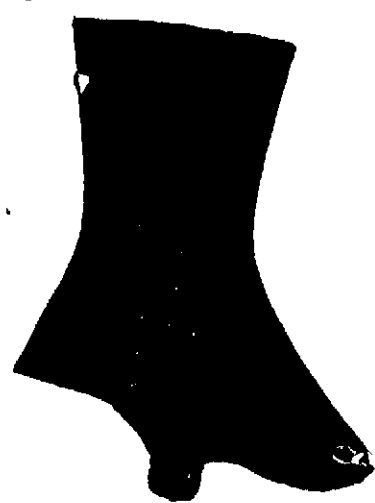

Peoria, Ill., Feb. 20.—Entries from all parts of the United States, Canada, Mexico and Cuba go to make up the record-breaking number of five teams that will take the drives here March 10, in the annual event of the American Bowling Congress. Scattered entries continued to arrive today and it was estimated between 100 and 200 teams would compete. Toledo holds the record with 795 teams.

ASHLAND MAN NAMED

AUTO THIEVES HELD AS BURGLAR SUSPECTS

Albert Towner and Charles Burke are being held at Cincinnati on a charge of robbery and having burglar tools in their possession. Police Chief William Copelan of the Queen City investigated the ownership of a Buick touring car which the men were using and found that it was stolen from the garage of R. S. Campbell on the National Pike, south of this city.

Chief Copelan has written Chief Sheridan to send on warrants for the two men which will be used before the grand jury at Cincinnati and if they are not indicted they will be held for Newark. Campbell received the amount for which his car was insured and the insurance company carrying the policy is endeavoring to secure the car, but it is being opposed by counsel for the men in custody.

TOASTIES

AND THEY ALL "STOOD PAT"

While Mr. James Corbett, Who Had Manipulated the Deck, Sat Apart and Laughed.

In a club much frequented by men of the theatrical business, a poker game which began as a mere pastime grew, by degrees, to an undesirable intensity. The chaps who usually "sat in" were all friends and fellow-laborers in a none-too-lucrative occupation. They agreed among themselves that there must be no more raising of the limit and no more reckless betting. The game must be one for amusement only. On the night when this agreement was solemnly concluded, they sat down and sent for the cards. Jim Corbett brought them. "I'll just sit and look on for a while," he said. "May take a hand a little later."

One man took the cards out of the box and threw around for a deal. The dealer shuffled them and passed them for the cut. Then he dealt a hand while the banker was giving each man his checks. The first man after the deal bet the limit. Every man of the seven around the table came in, each "tutting" the pot for the limit.

"Say," said Corbett, "I thought you fellows were going to play light. That's a fine way to start out."

This evoked not even a response from the players. Each was sitting tight and covertly eying his neighbors. The dealer asked the first man how many cards he wanted. He stood pat. Every player around the board looked startled. Then the next man stood pat. And after him the next and finally all seven. It was at that moment that some one observed Mr. Corbett apparently about to choke in his secluded corner. Corbett had combined 25 per cent of four separate decks, so that the 52 cards he had handed the players were all spades. Each man had a pat flush when the betting began.—Cincinnati Times-Star.

LESSON IN FRANKLIN'S LIFE

Great American Statesman and Patriot
of Rose to Immortal Fame From
Humble Beginnings.

On the 17th of January, in 1706, Benjamin Franklin was born at Boston. His father was a soap and candle-maker, his mother, the daughter of a Quaker poet of Nantucket. When Benjamin was ten he was taken from school and set to work in his father's factory. He never again attended a regular school, yet he became a scholar. He was inept and unhappy at his first occupation, so his father apprenticed him to his brother to learn the trade of a printer. When he was seventeen he ran away from his brother and opened a printing office in Philadelphia. He pursued the career of printer and publisher until 1736, when he was made clerk of the Pennsylvania assembly. This was the beginning of his public career, and he rose steadily until he became one of the most striking figures in America. In France, when he was sent there as ambassador after the Revolutionary war, he became as widely known and loved as in his own country.

He Got the Job.
The colonel of a negro regiment in France charged the adjutant with selecting a suitable soldier to serve as orderly at his billet. The adjutant combed the command for the proper man and finally found one who had been an elevator boy in a hotel—a smiling, gracious darkey, neat and respectful.

When the man reported the colonel impressed upon him the necessity for tact.

"Do you know just what I mean by tact?" he asked.
"Yes, sah. When it comes to tact I'm right on de spot. Why, cunnel, jus' las' week I went into the bathhouse near mah billet, an' foun' one of de madam-selles there. I jest stepped back an' says, 'Pardon, monsieur!' Now ef dat warn't tact den I don't know what is." —The Home Sector.

Not at Home.
I was busy cleaning my gas stove when the door bell rang. I was just about to open the door when I saw it was our pastor. So I stood back behind the door and told my little son, Louis, to open the door and tell him I was at the store.

But he pushed the door so far back that my toes stuck out from under the door, and when Louis told him I was out, he laughed and said: "All right, sonny, but the next time your mamma goes out, tell her to take her feet with her."

I have a chain on the door now.—Exchange.

Coral's Varying Colors.
Genuine coral may be red, pink, white, blue, yellow, green or black, the last being the rarest and most highly prized. The next valuable is the red coral, which is susceptible to a high polish and is most in use for jewelry, being the coral of commerce. Corals are roughly classed under two heads, the horny corals and the lime or stone corals. To the former belong the red and black forms and the white to the latter. Red coral is chiefly found in the Mediterranean. The corals found on the Atlantic coast of Florida are the lime, or stone corals, which are the reef-building forms.

Good Reason.
"You needn't be alarmed about women running for office, now so many of them can vote."
"I'm not. They couldn't do it in the present style of skirts."

Literally Stumbled on Riches.
About a quarter of a century ago two prospectors in the bushland of Western Australia had put up their tent for the night and determined to trek back to Perth next morning, as their quest had proved fruitless. One of them was aroused from sleep by the restlessness of his horse, picketed just outside the tent and, going out to see what was the matter, he tripped in the darkness over a boulder, which proved on examination to be almost pure gold. That was the beginning of Coolgardie.

Rancher's Lucky Find.
Some years ago a French-Canadian rancher was rambling about a distant part of his land when he noticed a piece of rock which glistened in the sun. Out of curiosity he picked it up and took it home with him. Its weight convinced him that it was mineralized rock and he took it to a specialist, who found it to be almost pure silver. Since then that ranch has yielded between 50,000,000 and 60,000,000 ounces of silver.

Kill the Name.
Scientists are trying to squeeze a new epidemic, discovered in Japan and called the "tsutsugamushi."

HARTSHORN'S "BASKET" GROCERY

(National Crop Improvement Service.)

For want of a better name, the devoted young women who are carrying the gospel of thrift and household organization into homes in nearly every county where there is a farm bureau, are called "home demonstration agents."

Their work for women and children is similar to that of the county agricultural agent for men and boys.

The things they do are innumerable. The above illustration shows a dress form school conducted by Miss Mabel Webber, the leader of Red Willow county, Nebraska. She has established home-makers groups in all parts of the county. Twelve of these groups each send a delegate to the central school. Each

makes a dress form for herself and then takes the instructions back to the women of her group, each to make forms for themselves.

Miss Webber states that the material for a dress-form costs \$3.50 and can be completed in an average of about seven hours. First the frame is made, second the fitted lining is tacked to the bottom of the frame, then stuffed, then padded out until it is an exact replica of the measurements of the girl who makes it. It is stated that a satisfactory commercial form would cost about \$25 or more.

Every girl makes her own "Betty" as one of the rudiments of the dress-making and remodeling school conducted by all of the clubs in that county.

GRANVILLE

(Special to the Advocate.)
Granville, Feb. 20.—President C. W. Chamberlain, who represents Denison University in the financial campaign of the inter-church world movement, left last evening for Detroit, Mich., for a conference of the state pastors and leaders of the inter-church.

In the K. M. C. A. attendance of the eight fraternities, Phi Gamma Delta scores the highest percentage, 749; Phi Delta Theta next with 650; the "Sigma" (Sigma Alpha Epsilon, Kappa Sigma and Sigma Chi) bringing up the rear with 215, 128, and .000 respectively.

Today, tryouts for the inter-class swimming meet will be held for the contest set for February 26th in Cleveland hall.

The Washington banquet, the annual social event of Denison university, has been planned on a generous scale by a committee from the senior class, with Arthur Bawden as its chairman. Tickets should be secured at once by those desiring to attend. The hour set is 7:30 Monday evening and guests are requested to assemble at 7:00.

From yesterday's Denisonian: "To journey to England, the land of Counts and Noah Counts, there to claim a fortune left by a noble aunt smacks of the days when knighthood was in flower, or a few pages from one of Horatio Alger's works (any one of them will do as well as any other.) Yet that is precisely what happened to John Hishop, '06, once a humble member of this college community. Mr. Hishop recently received word that he is the sole heir of his aunt, Lady Tate, whose recent death brings him into possession of a fortune valued anywhere between \$200,000 and \$2,000,000. He is now in England settling up the estate. Only one cloud appears in the unmarred azure of life's sky—the outlandish British inheritance tax under which Mr. Hishop's windfall will depreciate to the tune of about 60 per cent. Even then—well, we're inclined to be a little envious. Louis Dornier, latest victim of the flu to develop serious symptoms, is reported as holding his own, possibly improving slowly.

On Saturday evening, Kappa Phi Chi, Phi Delta and Sigma Delta fraternities of Shepardsburg college, will hold their annual receptions in their respective chapter houses for the new girls. The honors have been so arranged that each girl may attend all the receptions.

Yesterday every man in town received a picture post card mailed in Cincinnati and signed with a woman's given name—a different name in each case—which has occasioned perplexity or worry according to the temperament of the recipient. "Alice," "Annie," "Ruth," "Edith" and so on, have played a part in a clever advertising scheme of Austin and Graves for a moving picture, "The Country Cousin" to be shown in the opera house tonight.

Any reader of the Granville page who wishes to ask a question or offer a suggestion to the community can use the "Query" column with complete liberty, by sending it to Box 442, Granville.

The old Town Clock, which has given splendid service for over half a century, is beginning to show signs of age. Who is going to replace it with an up-to-date mechanism? The old fashioned parts are no longer manufactured, and it depends on the local custodian to keep it running. The bell, too, is cracked and its voice doesn't carry as it should, even in sounding the fire alarm.

In numbering the houses in Granville why not use radiant paint that will show at night?

What has become of Granville's electricity?

Shepardson women must pay fifteen dollars more for their board this semester according to a statement by President Chamberlain. In most colleges this bill was raised in the fall. The authorities of Denison have not asked for an increase until it seemed necessary. With this ninety dollars per semester board bill, the extra cost of furnishing food under present day prices will not be entirely met.

"The parlors of the girls' dormitories furnished for use as such and not as ball rooms and for that reason we disapprove of the girls' dancing there," said President C. W. Chamberlain, president of Denison university yesterday concerning the matter, which has caused up for disciplining consideration recently.

"There are sanitary reasons too," he continued. "Prancing around on the carpet and raising a dust in the parlor is not in accordance with the best sanitary principles. When this practice is repeatedly carried out, the rugs are bound to suffer. The parlors have been furnished at considerable expense to the college and deserve the best of care."

"When a girl wants to use the parlor for entertaining her father or other guests, she should not be embarrassed by having three or four girls dancing around."

"To dance in the parlors is to rob them of their rightful use," he concluded. "A suitable gymnasium has been provided for the women of Shepardson. Here they may dance."

DEMAND FOR STENO-GRAPHERS.

Many people are wondering what becomes of all the young women stenographers who are turned out every year by the high and commercial schools. Where on earth can they all find jobs?

And business men complain that a large part of them are not well trained in their work. Unless they gain added proficiency by using their shorthand most of the time, they soon lose speed and correctness. Then they may not be able to take dictation and get it accurately much faster than if they were taking it in long hand.

Stenography seems to be regarded by many young women as a kind of "prep" school for marriage. It places them in a business office, where they make the acquaintance of young men, and soon there are wedding rings and veils, and the boss is yelling to the school superintendent for another. Possibly this explains where they all go to.

Young women who are ambitious for permanent business success need a more thorough course than the schools usually give. And country girls who give up comfortable homes to take these jobs in the cities, could usually do better in these times canning food stuffs in mother's kitchen.

EDUCATING WOMEN VOTERS.

Federal woman suffrage was ratified by the 31st state the other day. The chances that women will vote everywhere at the fall election for president are growing stronger. If so, there is a big job in the states that have not had the suffrage, to educate the women to take up for the first time the responsibilities of the franchise.

The majority of women in non-suffrage states have not so far taken a deep interest in politics. This has been perfectly natural, since they had no direct method of expressing their convictions.

Clubs and other organizations of women in the non-suffrage states should take up this matter at once. They should assemble just as many women as possible to consider the fundamental problems of citizenship, also the history of political parties and political methods. The effect should be made to interest every woman in her prospective new duties. Only in that way will they be able to vote intelligently.

THE STOCK MARKET.

The big fall in the price of all stock market securities, does not necessarily mean a financial panic of even a business depression. Its principal cause seems to be the lack of ready money. People have been spending extravagantly, also wasting money in wild cat speculations, when they should have been putting funds in the banks.

There is not enough money to finance the country's business. People that need to sell securities have to sell them for less than their intrinsic worth. Work and save, is the only remedy for this abnormal condition.

The presidential candidates all ignore the idea that the next president should be a business man, as they all claim to fit that description.

Idea of economy in some towns is to avoid spending the dollar in highway repairs that would save a \$10.00 job later on.

The government is now about to solve the railroad labor troubles by passing the buck over to the private owners.

Denied that the umbrellas now being sold are no good, as you can always rip off the cover and use it for a strainer.

MAKE FRIENDS WITH THE ALIEN.

At the initiative of the American Legion, a "Make Friends with the Alien Week" has been suggested to the American people as worthy of special observance. It is hard in these crowded times to get these special occasions noticed, but there is a seed thought that could have a rich harvest.

The alien should be made a friend, for more reasons than one. Not for mere motives of charity alone. That reason may exist in special cases of need. Yet the average alien is perfectly able to stand on his own feet and he does not desire charity. He wants to be treated as a man by men, and does not want condescension or patronage.

Sometimes the alien has as much to give the native, as the native has to give the alien. The alien has strong and willing hands, he easily does the hardest kind of work without complaint. In these times a friendly acquaintance with people in your own neighborhood who are not afraid to exercise a little muscle, is often of the greatest practical value.

Often the alien is quite as good an American as his neighbors. If he has escaped from a land of tyranny, America seems a glorious palace of liberty to him. The very air breathes the glorious ozone of freedom, and he steps high in its exhilaration. Your own faith in Democracy may drop at times, but perhaps you can revive from his own experience and his faith and hope in his new country.

The alien may have seen more of the world than you have, and can make interesting comments on life if he ever gets to the point of free English speech. He is a friend worth cultivating. The folks who make it a point to seek the acquaintance of their foreign born neighbors and draw them out, and who interest themselves in their affairs, find the contact often far more rewarding than they expected. Try it on your alien neighbors here in Newark.

The sporting crowd have consented to save paper stock by omitting the political news, and the politicians have agreed to co-operate by giving up the Household Hints.

Juror's who can't agree in 24 hours are usually locked up until they can get together, but the senate has been splitting hairs on the peace treaty for eight months.

College students showed a willingness to try to pass their midyear exams if it would not interfere with their basketball and baseball practice.

It will take some good sharp clippers to trim up the folks who weren't going to visit the barber till the peace treaty was ratified.

Every hair-splitter in the senate peace treaty fight has for six months been deploring the wilful obstinacy of all the others.

Owing to the rise in price of colleges, some destitute and impecunious kids can't afford more than three or four a day.

Economical college boys are saving their \$5.00 hats by going bare-headed and incidentally loading a \$50 doctor's bill on Dad.

Though the presidential candidates issue statements that they are not candidates, they stick around close to the telephone.

Psycho-therapy is advertised to cure timidity. So far the girls of Newark do not seem in need of the treatment.

It is illegal to pay a man a dollar for his political support, but it's all right to promise him a \$10,000 job.

The investigations of H. C. L. clearly demonstrate a lot of facts that everyone knew before.

Politicians insist on a presidential candidate who never did anything to offend anybody.

Many people now observing Lent by giving up things they do not want to do anyway.

Pointed Observations

It begins to look as if the millions spent by congressional investigating committees in their efforts to find something that would help make Republican capital, have added a lot to the high cost of living in the money they have needlessly taken away from the taxpayer for that purpose.—*Lehigh News and Observer.*

Lady Astor may be selected as the member of the house of commons to reply to the King's speech. The last word.—*Cleveland Plain Dealer.*

Congress appears to be too busy looking for shortcomings in other governmental branches to recognize its own.—*Norfolk Virginian-Pilot.*

THE LEAGUE AS AN ISSUE.

(Philadelphia Record)

A few days ago Republican politicians were indulging in anticipatory chuckles over the knockout they were fondly expecting to hand to the Democrats in the Third Congressional district of Missouri, where a vacancy has existed through the appointment of the sitting member Joshua Alexander, to be secretary of Commerce in President Wilson's Cabinet. In 1918 Mr. Alexander was elected by a vote of 13,910 to 14,117 for his Republican opponent, his margin of 198 being about the normal Democratic majority for the district. This lies in the northwestern corner of Missouri, and the population largely rural, is said to be almost entirely of American stock. The League of Nations was made the leading issue of the special election and the Democrats nominated a young soldier who had made a good record in the world war, and who is a strong advocate of the League, against a Republican strongly anti-League. Owing to the party treachery of Senator Reed, who has been one of the most bitter opponents of the peace treaty, it was feared that there might be some Democratic defection, and it was on this ground that the Republican politicians based their premature exultation.

The election was held on Saturday, and the Republican victory by a majority of some 1700 or 1800 quite possibly may be more. If Senator Reed has any influence in the district he did not do so exert it at the polls against the party nominee. So far as the result has any bearing on the League of Nations as an issue, it shows that that is decidedly a winning card. This was the second special election for congress held since last November, the other having been in the Ninth district of North Carolina. There the Republicans made every effort to carry the day, and the peace treaty was also made an issue. The Democrats won by a majority somewhat smaller than that of 1918.

Such straws show none of the preponderant drift to the G. O. P. of which we hear so much. They indicate, indeed, that the Democrats are holding their own, and that if the League of Nations shall be made an issue in the approaching Presidential campaign it will be distinctly to their advantage. The more astute Republican leaders recognize this and are accordingly anxious to have the senate ratify the treaty and eliminate it as a political question. By refusing to do so the senate is playing directly into the hands of the Democrats, as the election just held shows.

BUSY WASTE BASKETS.

(Cleveland Plain Dealer)

We do not recall having read "A Life Sentence" by Rev. J. P. Weinmann, a speech delivered in 1918. It must, however, have been a masterpiece, for 2,000,000 copies of it were printed for the federal railroad administration at public expense. Presumably it was mailed at public expense.

In 1917 and 1918 24,000,000 copies of speeches by William G. McAdoo, secretary of the treasury, were printed at government expense. This avalanche of oratory was also, presumably, mailed at public expense. One McAdoo speech to every fourth resident of the United States, approximately. In addition, another speech by Director General McAdoo was deemed worth 1,000,000 copies printed and distributed at the taxpayers' expense.

There is a shortage of white paper. Washington is interested in saving paper—by other people. Between July 1, 1916 and September 15, 1919, Senator Smoot showed the other day of government printing office turned out 30,144,362 copies of speeches for the departments, using more than 443 tons of white paper. It is an interesting exhibit. It was a busy three years for American waste baskets.

WE NEED MORE BEES.
(Ohio State Journal)

Thousands of tons of honey go to waste in Ohio each year. The bees are not enough bees to gather the nectar from the bloom and flowers. This statement from the agricultural extension department of Ohio State University may surprise those who have not studied the question and had not calculated to what a large extent the bee could minister to our comfort as well as to our profit. If all that nectar was gathered and become honey the state would have such a wealth of sweets most people could afford to laugh at the sugar shortage because they would have a substitute for sugar that is better than sugar.

Did You Know
That it was an old Roman saying that the number of persons at a repast

should not be less than that of the Graces, nor more than that of the Muses? It is said that the Roman meal probably consisted of two courses and a dessert, the first course being of viands intended to sharpen the appetite and the second consisting of a joint roasted or baked. Oil was very largely used by the Romans in preparing their food. The wealthy Romans were particular about elegant services at table as well as about the quality of the food.

LXXVII.—The Man in The Case.

When Keitha joined Mile. Forester on the beach, the latter looked up sleepily from under her orange sun-shade. "Bon jour, Madame," she laughed. "It is so sleepy, your California air. I'm so hard but I cannot keep awake."

"Our whole household is sleeping late after the dance," returned Keitha, seating herself on the sand beside the little French girl. "Lester and I are the only ones abroad. He rides a car to deal in the car 'morning."

"I'm to town to ride," said the French girl. "Do you think he might take me, or Mme. Bennet, would she object?" Keitha experienced a sudden sense of shock. It was obvious that Bennett had not told her, Mile. Forester, that she, Keitha, was his wife. She had thought, of course, that he would straighten out her ridiculous contention to being his sister-in-law when he had his long serious talk with the French girl.

It struck a false note somehow and shook a little of the confidence in her young husband that Keitha had felt awakening. It would have been so easy to explain then, but now it was necessary to keep up the play and it would inevitably lead to some embarrassing denouement.

But it was too late now, so with a sigh, Keitha resolved to continue to be a good sport.

"Do you mean his wife or his mother," parried Keitha.

"Oh, but what a lot of relatives," exclaimed Mile. Forester, with a comical grimace. "Poor Lester! How—what do you call it—henpeck he must be!"

"He has another yet who rules him with an iron handle," smiled Keitha. "I see her coming down through the garden now."

And in one of her usual brilliant morning gowns, waved her sister-in-law greeting with a cubist parol of he and his innocent victim in less than 1-2 min.

Never had Blotz looked more terrible than in this instance, as he charged the terrified old man, (who he was equally terrible when overcharging, which he done quite frequent). Hate and fury mingled on his bovine face. The helpless victim of his rage, perspiring quite freely, sank to his trembling knees, expecting every min. to be felled by one blow. Nearer and nearer crept Blotz, murder in his bloated face, the gleaming knife about to descend upon the defenseless head of his innocent pray, when suddenly the very air was rent with a peering shriek.

How Labor Plans to Win The Government

Can American Labor elect a Labor Government without the aid of a Labor party? For nothing less than this, in the opinion of the New York Times (Dem.) is the purpose behind the non-partisan political campaign of the American Federation of Labor. If the Federation could control the votes of one-third of its membership "it could dominate the situation," remarks the Baltimore News (Ind.). The Federation's plan, the Chicago Unionist reminds us, is another application of the methods by which the Anti-Saloon League won its overwhelming victories after the Prohibition party had failed to get political results. In Congress, Representative Blanton, of Texas, characterized the American Federation of Labor pronouncement as "the greatest menace ever sounded. For," said Mr. Blanton, "when an organized minority of less than five per cent of the people can control legislation, and now threaten to elect a Congress of serfs, it is indeed a national crisis, threatening the institutions of the country." According to the Indianapolis Union, however, "the American Federation of Labor does not seek to govern; but it is eminently right in taking steps to educate its members as to which side their political bread is buttered on."

No other subject before the public today bears more importance than that treated in the leading article in THE LITERARY DIGEST this week, February 21st. It presents public opinion, as reflected in the press of the country, upon the entrance of the American Federation of Labor into the presidential campaign.

Milady's Boudoir

Reducing for Stout People.

Eating to grow thin is only half the problem. When one reaches middle age in perfect health and the body has only to renew itself and nothing is done to tear it down, naturally flesh accumulates, even if only a normal ration is eaten. No one loves a fat person, primarily because a heavy, cumbersome body is not attractive to the eye and underneath this is the idea that a fat person is lazy and cares more for the delights of the table than for the joys of activity.

Extreme changes in diet are to be avoided unless under the directions of a competent physician, but a moderate reducing diet, in which fats, sugars and starches are conspicuous by their absence, can be the means of taking pounds from one's weight without ill effects to the bodily health.

Half a lemon in three quarters of a glass of cold water, not iced, before breakfast will aid materially in reducing superfluous fat. Sugar should be left severely alone and used only in small quantities when cooking. Remember that the aim in view is to exercise and diet in such a way that more tissue will be burned up, or oxidized, each day than is built up by food consumed. Thus, if you are a very hearty eater,

lessen the quantity of food you eat and at the same time, see that your daily menus are rightly planned.

In the making of salads, oils should not be used and even the boiled dressing must be avoided. A dressing made of the white of an egg can be used, also a mock French dressing, made as follows: Blend together half a teaspoon of salt, a little paprika, two tablespoons of melted butter and a tablespoon each of white grape juice and vinegar. Beat well and pour over the salad.

Egg lemonade can be drunk once a day and is made by squeezing the juice of one lemon into two glasses of water, leaving out sugar, if possible. If too tart add a teaspoon of sugar only. Just before serving, add to the glass the stiffly beaten white of one egg. Shake well before serving.

Theodore's Bright Idea.

Theodore was fond of olives, but his father had forbidden him to eat them. At dinner one day, during his father's absence, a large dish of olives had been placed near Theodore's plate. He looked at it longingly and said: "Mama, let's play a joke on daddy and eat some olives."

Arizona is a word of Spanish-Indian origin meaning "Little Creeks."

Our Boys and Girls

The child who is taught careful grooming must be provided with the wherewithal for the same. Every child should have its own toilet articles, personal towels, soap and wash cloth as well as its own tooth brush. Do not expect a child of three or four to use an ordinary washstand designed for adults. Or if you do, see that it has a safe stool just the right height to use and that it keep in a place where the child can get it. By means of this stool the child can lean over the basin of water and bathe the face and hands or brush the teeth with ease.

Where there are two or more the small toothbrushes should be distinctly different in shape of handle, or marked in some way in order that no mistake may be made. A mere baby should be trained to a finicky fastidiousness about the personal toothbrush. There should be wash cloths marked so that each child will know its own and each towel should also be marked. Each child should be taught to keep their articles in their right place and to always put them back after using them.

A new vacuum washer for small garments also can be used for drycleaning with gasoline.

INCREASING INTEREST

AT EAST MAIN U. B. Evangelist Williams was greeted by a fine attentive audience last night. He preached a very forceful and clean cut sermon on the subject "What Is a Christian?" He emphasized the necessity of the new birth, being, serving and loyalty to Jesus Christ. Dr. Williams bears to the fine and adheres closely to the Old Book. He calls sin, SIN, and makes no compromises. The forces are now organized and the campaign will go forward on double time. Tonight is church night. Let every member of the church come. Ask God about that excuse. Special services Saturday night. Visitors always welcome and treated courteously.

DON'T SUFFER WITH NEURALGIA

Use Soothing Musterole

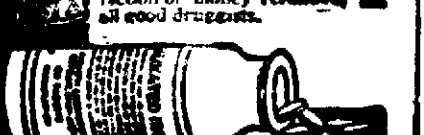

When those sharp pains go shooting through your head, when your skull seems as if it would split, just rub a little Musterole on your temples and neck. It draws out the inflammation, soothes away the pain, usually giving quick relief. Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister. Many doctors and nurses frankly recommend Musterole for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bitten feet—colds of the chest (it often prevents pneumonia). It is always dependable.

LLOYD GEORGE WOULD MAKE PEACE WITH REDS

Paris, Feb. 20.—Premier Lloyd George is in favor of opening peace negotiations with Russia through Maxim Litvinoff, Bolshevik representative in Copenhagen, and is supported by Premier Nitti of Italy, according to the Echo de Paris. Paul Cambon and Philippe J. L. Berthelot, members of the French delegation at the meeting of the supreme allied council in London, have no authority to enter into such a proposal, and Premier Millerand has been recalled to London.

ASKS FARMERS TO AID CENSUS ENUMERATORS

Washington, Feb. 20.—An appeal to the farmers for fuller co-operation with the census bureau was issued today by Secretary of Agriculture Meredith. The delay and difficulty in taking the census of the farms, the secretary said, has become a matter of serious concern to the department. Part of the delay was ascribed to adverse conditions.

ACCUSE ALLIES OF PARTIALITY TO CZECHS

DOCTOR SAYS TOBACCO CAUSES HARDENING ARTERIES

Tobacco causes hardening of the arteries, says Dr. Conner, and along about forty when a man should be at his best, the excessive tobacco user finds himself with high blood pressure, headaches, indigestion and a lot of other troubles. Your own doctor will tell you this is true. If you want to quit tobacco entirely or cut down the excess, get a package of Nicotol tablets from your druggist and you will find it easy. Nicotol kills the craving and makes the tobacco habit quit you. It is sold under a steel bound money back guarantee by all druggists.

Note—Ask your druggist what others say about the wonderful power of Nicotol to break the tobacco habit. He knows and he can be trusted to tell you the full truth.—Adv.

Presiding Elder Feels Ten Years Younger

Rev. W. H. J. Powell, presiding elder of the Fordyce District, West Arkansas Conference, Camden, Arkansas, says "one of my parishioners recommended Dr. Chase's Blood and Nerve Tablets to me and I thank God I found this remedy for I really believe I should have died had I not found it. My strength has been restored and I feel ten years younger. Before I used Dr. Chase's Blood and Nerve Tablets, I used to be so weak, at times I had to hold on to the pulpit while delivering my sermons. There were nights when the slightest noise would awaken me as the closing of a door or the flapping of a window shade. I was nervous, had lost control of my bowels, and sometimes it seemed as though there was no feeling in my lower limbs." Sold by Druggists at 60 cents. Special, (Stronger more Active 90 cents).

Sure Way To Get Rid Of Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

Old Folks Should Watch Colds

IF YOU have passed middle age, you should be careful to keep from feeling a bad cold. It is not only a nuisance like the flu. Stop every cold before it gets a start. You can feel positively safe if you keep a package of **WATERBURY LAXATIVE PILLING TABLETS** and take them when you feel a cold coming on. Thousands of people have found them a perfect remedy for colds, and forms of influenza, etc. With no grip, no dizziness. Ask your druggist or dealer. They cost only 25 cents a package.

WILL CONDUCT EVANGELISTIC MEETINGS AT CENTRAL CHURCH ALL NEXT WEEK

DR. WALTER MANSELL.

Dr. Walter Mansell, lecturer-evangelist, at present supreme lecturer and instructor of the Tribe of Ben Hur, who has been the supply minister at the Central Church of Christ since the resignation of Rev. R. E. Carman, will begin an eight-day series of evangelistic meetings at the Central church beginning next Sunday morning, and continuing over the following Sunday.

Dr. Mansell has served the Washington, Pa., church and his last charge was the church at Warren, where he resigned in account of ill health. He took up the work of the Tribe of Ben Hur.

Dr. Mansell has been a lecturer for two lyceum bureaus and is a forceful speaker.

His headquarters are in Columbus and he has supplied the Central church on Sundays since last fall and will continue to do so until April 1.

He has arranged to be here all next week and give his full time to the evangelistic work.

During his stay here he will hold two special meetings, one for the children and one for the men.

The meetings are open to the public.

HELPED FRIEND; LADY WHEN IN NEED GETS AID

Mrs. Stafford Says That
Advise to Take Trutona
Restored Her Health.

Springfield, O., Feb. 19.—Nervous, weakened and run down men and women will find something of interest to them in the statement of Mrs. Ida Stafford, a well known Springfield woman who has found remarkable relief from Trutona, the Perfect Tonic.

"Yes, my system was generally run down," Mrs. Stafford said. "I was terribly nervous and often suffered from sick dizzy headaches. I usually become restless at night and often felt as tired in the morning as I did when I went to bed the night before. After meals gas would form in my stomach and I would belch and feel bloated. My bowels were irregular in action, too."

"My friends recommended Trutona to me. My nervousness is fast disappearing and I'm gaining in strength, too. I rest well at night and the sick, dizzy headaches I formerly experienced are things of the past. I'm never bothered with bad effects after eating any more. I can gladly say that Trutona is a splendid medicine and I'm glad to tell others about it."

Trutona is now being introduced and explained in Newark at W. J. Erman's Drug Store.—Adv.

FATHERS PLAN TO SAVE REMNANT OF HAWAIIAN RACE

Senator John H. Wise.

Senator John H. Wise, himself part Hawaiian, is a member of the commission from the territory of Hawaii now in Washington with a plan to save the remnant of the Hawaiian race which has dwindled from 150,000 persons to 25,000. He is the father of the plan which includes placing them in open stretches of country.

Enough is as good as a feast, but the profiteer is a glutton.

[National Crop Improvement Service.]
"When a house burns down insurance will not cover the loss because it cannot replace the precious material destroyed."

"Sixty-five per cent of all fires in town and country during 1917 were in dwelling houses and included 23.5 per cent of the total fire loss in the United States, according to a report of the National Board of Fire Underwriters. In actual numbers there were 232,621 dwelling-house fires resulting in the loss of \$60,166,420."

"The greatest loss from these fires occurred in the smaller towns and on the farms because of the lack of fire fighting facilities."

"Fireproof buildings can be erected in cities, but in the country wood is the best known and most economical structural material and when properly protected results in a building in which fire finds it hard to gain headway."

"Some buildings catch fire from near-by structures which may be burning either from flaming brands or direct flames."

"A frame house can be protected with a Portland cement stucco on metal lath which will protect the wood from even charring for more than an hour. This has been tested out in laboratories repeatedly."

"But the greater need is for the protection against fire starting inside the building. While, of course, metal lath over the whole structure would be wise, yet if the six vulnerable points inside a house are protected by metal lath and hard plaster there is comparatively little danger of fire."

"These places are: the inside of all exterior frame walls; all bearing partitions; basement ceilings, especially over heating places and fuel bins; under and around stairs; inside of closets and around faces and chimney breasts," says Mr. Wharton Clay, secretary of the Metal Lath Association, Chicago.

"When any man is building a home, if he has his attention called to these points at the right time, there would be very few fires. As a rule he has figured everything else except his fire protection."

"He takes a builder's risk and puts his insurance on the building, but he neglects to put metal lath where the danger lies. We have so many inquiries on this subject that we have the whole story in a booklet which we will be glad to furnish anybody who contemplates building. Fire protection is simple and inexpensive. The point is that you must think of it at the right time, before the house is plastered."

THE BUCKEYE INCUBATOR

The entire Buckeye SYSTEM is so simple that any boy or girl who can read intelligently can operate a BUCKEYE INCUBATOR just as satisfactorily as an experienced operator.

We positively GUARANTEE that no previous experience is necessary to operate a Buckeye.

You simply follow our instructions and get a chick from every HATCHABLE egg that you put in the machine.

There is really so little for the operator of a BUCKEYE to do, that it can be told in a few words.

It's simply this—

YOU KEEP THE LAMP BURNING AND TURN THE EGGS TWICE A DAY.

That's positively all there is to do—and even the turning of the eggs is reduced to operation that takes just about one minute for each tray full.

I AM GLAD TO ENDORSE PE-RU-NA

Glad to Try Anything

Was in a Terribly Run Down Condition

Three years ago my system was in a terribly run down condition and I was broken out all over my body. I began to be worried about my condition and I was glad to try anything which would relieve me. Peru-na was recommended to me as a fine blood purifier and tonic, and I soon found that it was worthy of praise. A few bottles cleared my condition materially and in a short time I was all over my troubles. I owe my restoration to health and strength to Peru-na. I am glad to endorse it.

Miss Ricka Leopold, 238 Lacey St., Menasha, Wis. Society Leader. Miss Leopold's letter opposite conveys in no uncertain way the gratitude she feels for Peru-na.

AUDITORIUM.

In the opinion of Maxwell Karger, Director of Boreo Classics, Inc., special productions who, with Richard A. Rowland, president of Metro, presents Nazimova in her super dramas of the screen, the photo production of the recent stage success "The Brat" with this supreme actress in its still not only serves to establish more firmly her wonderful emotional talents, but also so acclaims Nazimova as a dramatist of the highest order.

Through all the successive steps from the selection of the play itself, the consideration of its motion picture possibilities, which were weighed on the severest scales, and the decision to produce the play on the screen," said Mr. Karger, "Nazimova has shown herself not only conversant with the most minute details of production and picture values, but also a keenness of vision seldom exhibited even by producers."

The Mathis made the scenario of "The Brat" from Nazimova's working synopsis. "The Brat" is now being shown at the Auditorium theater. This feature will be seen Saturday also, the screenings on that day being continuous starting at 1 p. m.

"Riddle Gawne."

Mr. Fenberg announces that the pictures at his Auditorium Sunday will not start until shortly after 3 p. m., owing to the fact that he has given the theater up to the American Legion from 2 until 3 p. m. He has arranged a special program, Wm. S. Hart being the star, and he will be screened in the Artcraft special, "Riddle Gawne," a story that ran in The Argosy Magazine, the story being as follows:

Known throughout his section of country as "Riddle" because of his strange and undying hatred of mankind, Jefferson Gawne is a prosperous rancher, whose life is devoted to the vengeful search of his younger brother, Wesley's murderer. The day Wesley is mortally wounded, his faithless wife, camped with the murderer, leaving her daughter, Jane, alone in her cradle, before he dies, Wesley reveals the identity of his assassin to Jefferson, a man known as Watt Hyatt. Gawne takes his niece and rears her on the Diamond Bar ranch, patiently awaiting the time when he may leave her alone and continue his search for Hyatt.

Gawne lives near Bozzam City, a town ruled by Hame Bozzam, leader of a band of cattle rustlers. Gawne and Bozzam hate each other, and when Kathleen Harkless arrives from the East to live with her father, Colonel Harkless, she is insulted by Cass, a member of Bozzam's gang. Gawne appears in the scene and after wounding two of the rustlers escorts the girl safely to her home. Unknown to Kathleen, her father is a member of Bozzam's rustlers and Bozzam designs to hold this over the Colonel's head to aid him in his plan to make Kathleen his wife in revenge for Gawne's rescue of Kathleen. Bozzam orders Red Butler, the sheriff, who is his too, to arrest Gawne, but the next day Butler is found at Bozzam's doorsteps neatly tied up and delivered by Gawne. While riding over the hill Gawne is shot from ambush and severely wounded by one of Bozzam's rustlers, and when Blanche

Dillon, Bozzam's woman, who is trying to kill him, learns of Gawne's injury, she goes to Diamond Bar ranch and nurses him against his will. By a ruse she makes Kathleen, who secretly loves Gawne, believe that Gawne has an affair with her (Blanche) and is not true to Kathleen.

A two-reel Monkey comedy, with Mr. and Mrs. Joe Martin as stars, called "A Baby Doll Bandit," also Pathe News are added features.

"Her Only Way."

Norma Talmadge in "Her Only Way" is the Auditorium feature for the first three days of next week starting Monday. This is a Select Picture Corp. feature and in the cast besides the star is seen Eugene O'Brien, Ramsey Wallace, B. A. Warren, Joana Howland and Lucile Westbrook. Miss Talmadge has a role that suits her to a T.

"Her Only Way" tells the story of Lucile Westbrook, who is just out of a boarding school and is returning to her small home town. When she reaches home her guardian tells her that her small fortune has dwindled and that unless it can be restored, the home of her family will be lost, and as a solution reminds her that Paul Belmont, who wishes to marry her is a rich man.

Torn between what she considers duty to her dead father and her love for Jo Marshall, a young man who has loved her ever since they were children, she is in a state of indecision, although the

day upon which she has promised Belmont his answer has arrived.

Wearied, she seats herself in the library when Jo Marshall enters, and fearing that he is about to lose her after all, breaks into violent outbursts against what he considers her love of luxury. Stung to the quick, Lucile tells him that when Belmont arrives, she will promise to marry him.

"Experience" Coming Back. "Experience" aptly described as the most wonderful play in America, now in its sixth season of remarkable prosperity, will be presented by F. Ray Comstock and Morris Gest at the Auditorium for a return showing soon.

LYRIC. The Sweet Daddy company played to two large audiences last night. A change of program will be given today, a very funny farce, "The Bonifaces." This bill deals with the ludicrous efforts of two Irishmen to run a hotel sold them by a sharper who has not found it a money making proposition. New chorus numbers and specialties by members of the company will be introduced. In addition will be the presentation of an amateur program, very funny carpenter contest will close the show. The company will give another complete change of program Sunday.

ALHAMBRA. The Girl From Outside. A remarkable cast is seen in "The Girl From Outside," a Goldwyn Picture which comes to the Alhambra theater today and tomorrow and which Rex Beach, famous adventure and author, wrote. While the level of the acting is far superior as a whole to the average run of pictures in which a star is featured, the really unusual work of Clara Horton as the girl from outside and Cullen Landis as the "Curly kid" stands out above the high average work of the unusual cast.

Rex Beach himself took a hand in the production of the picture with the result that the realism is true in gross and in detail. The town of Hones as it was in 1930 was built under the eye of Mr. Beach and an old Alaskan miner and friend of his who visited him while out walking suddenly came upon a scene once very familiar to him but now long gone. Particularly realistic is the scene of the landing of the ship which brings June, the girl from outside, to the scene of her adventures and death.

A Prizma is also seen.

The Prince of Avenue A. James J. Corbett known the world over, now with The Universal Film Company, whose Special Attraction "Photoplays" are played exclusively at Manager Fenberg's playhouses, will come to the Alhambra Sunday in the first of his photoplays "The Prince of Avenue A." This is something out of the ordinary and movie fans are promised a treat. The picture is also a comedy and Dray's Photograph will make the Alhambra program one that all will wish to see.

The Hope Chest. Casting a motion picture is the first move that calls for a certain future of all things. And it is a difficult thing to get good actors to take small parts. Dorothy Fish was brilliant when the casting director at her studio convinced George Eastman the man who played the original part in "The Hope Chest" on the stage both in England and America that the part of Louisa in "The Hope Chest" which will be shown at the Alhambra theater next Monday and Tuesday, was one which needed just such an actor as Eastman. It was to be given an artistic treatment it deserved.

Nothing But Nerve. The Hall Room Boys. Tomorrow Antonio Moreno. "Winged Death."

With the Moonshine on the Wabash. A Sunbeam Comedy.

Miss Olive Thomas, the clever little Seznick star, in "The Spite Bride," supported by an exceptionally capable company will appear on the screen at the Grand theater this evening for the first time. The picture was seen by several hundred people yesterday and all were delighted with it. The added comedy feature is one of those exceptionally class affairs entitled "Nothing But Nerve," in which Flanagan and Edwards are the leading performers.

Membership Drive Increases Roster and Service Men Voted to Continue Solicitation Indefinitely.

The American Legion held its regular meeting at the G. A. R. hall last night. A report by Chairman Rogers of the membership committee showed that the result of the recent drive for members netted about 200 new paid members and about 50 who have not yet paid their dues. It was agreed that although the drive was over the solicitation of new members be continued.

Chaplain Weld, chairman of the memorial committee, reported on the memorial service which is to be held in the Auditorium theater Sunday afternoon at 2 o'clock. Various associations and patriotic bodies have been given an invitation to attend the services in a body and many have accepted. The Legion voted to meet at the G. A. R. hall at 1:45 and attend in a body.

The memorial service is for the families of the soldiers who gave their lives in the late war, and the public has been invited.

Votes of thanks were extended to George Penberg, the Red Cross, and the Newark Business college for services rendered in connection with the memorial service.

After the regular meeting F. F. Wright of the entertainment committee introduced Baby Maxine Henry of the Polos Bergere, who sang and danced her way into the hearts of the members of the Post. Baby Maxine responded several times with encores and after her performance the "eats" committee pronounced that the dining room was in readiness, and the Post repaired there and enjoyed a real feed.

The Newark Post of the American Legion unanimously endorsed the proposition of a community chest and promised their aid when the chest is put over.

A motion to invite Father Kelley, of the National Council of the Catholic Community league, to Newark when he visits Ohio next month was adopted.

BOLSHEVISTS CAPTURE CITY OF ARCHANGEL

London, Feb. 20.—Bolshevik forces have captured Archangel on the White sea, according to a Moscow wireless dispatch today.

The Whites abandoned the town and the troops joined the Bolsheviks, the message declared.

The last advice to the British war office on the northern Russian situation were that on February 18 the red forces were 70 miles of Archangel.

Bolshevik possession of the city would mean a material weakening of the Dvina line.

Obituary.
We live in death, not years, in feelings, not figures on a dial. Libbie Estelle, daughter of Russell and Sarah Van Nostrand, was born March 9, 1887, and fell asleep Feb. 16, 1920, aged 33 years, 11 months and 7 days. At the age of 21 she was united in holy matrimony to Jay C. Weekly. During the twelve years of their married life there were born to their union two daughters, Laura Bell and Allie Ruth, both of the home.

At the age of 26 she joined the First Presbyterian church of Union. She was a kind, loving mother and wife. She leaves to mourn her departure a father and mother, one sister, Hattie Forsythe, of Hunt Station, besides a dear husband and two loving little daughters, Ruth and Laura Bell. Besides a host of other relatives and friends.

A precious one from us is gone. A voice we loved is still; A place is vacant in our home, Which never can be filled. God in his wisdom has recalled. The boon his love had given; And though her body slumbers here, Her soul is safe in heaven. 2-20-1x

Card of Thanks.
We desire to thank the friends and neighbors for kindness and sympathy shown during the sickness and death of our beloved wife, mother and sister, Mrs. Sewell Humphrey; also for beautiful flowers sent, Criss Bros. for kind attention, Rev. P. E. Kemper for comforting words; also the singers. Where as it has pleased our Heavenly Father in His infinite wisdom and mercy, to call from this life the beloved one. We miss her every where. Though we mourn her loss deeply, we

know that she is at rest, and some day we shall meet her in heaven with the Blessed, Husband, Son, Sister, Brothers and Relatives. 2-20-1x

Card of Thanks.
We wish to extend our sincere thanks to all our friends and neighbors who assisted us during the sickness and death of our beloved wife and mother and for the faithful service of Mrs. Taylor and Mrs. Peck, and also Rev. McKens for the comforting words and Mrs. Taylor for her tender songs and to the boiler makers union, Mr. Harry and Clarence Bowman, Mrs. W. F. Speer, Mr. and Mrs. C. W. Lane, Mr. and Mrs. Rufus Sharp, friends and neighbors. A. Brison, Mr. and Mrs. E. Hitchcock and sister for their beautiful floral offering, also Criss Brothers for their efficient service. 2-20-1x I. D. BOWMAN AND SONS.

Venom Even Affects Vegetables.
One authority on snakes has declared that the venom of the rattlesnake will affect even vegetables. Having inoculated various varieties with a point of a lancet, he found them the next day withered and dead, looking as if they had been struck by lightning.

Just What Did He Mean?
"Here, my dear husband," said a loving wife, "I have brought you a dear little silver pig for luck; it's a charm, you know, dear, to bring happiness to a house." "Ah, how kind of you, darling! But why should I need a little pig to bring me luck when I have you still?"

Carlile's Heaters Remove the Uncertainty of Heating

NO MORE SUFFERING ON COLD, WINTERY DAYS

HEATS FROM FIVE TO SEVEN ROOMS EASILY

A Carlile Heater will heat your entire home, floors and all. It will heat it evenly like a furnace. It will save your heating expense fully a third. It will keep a fire perfectly 48 hours without attention.

These are some of the reasons why you should have a Coal Heater in your home. When the gas pressure is down, your Coal Heater will be on the job. You won't have to go to the theater or hotel to keep warm.

These Heaters are clean, too. Being air tight, it must be dust tight. Also a direct ash flue carries all flying particles of dust up the chimney. We would like to show you this feature.

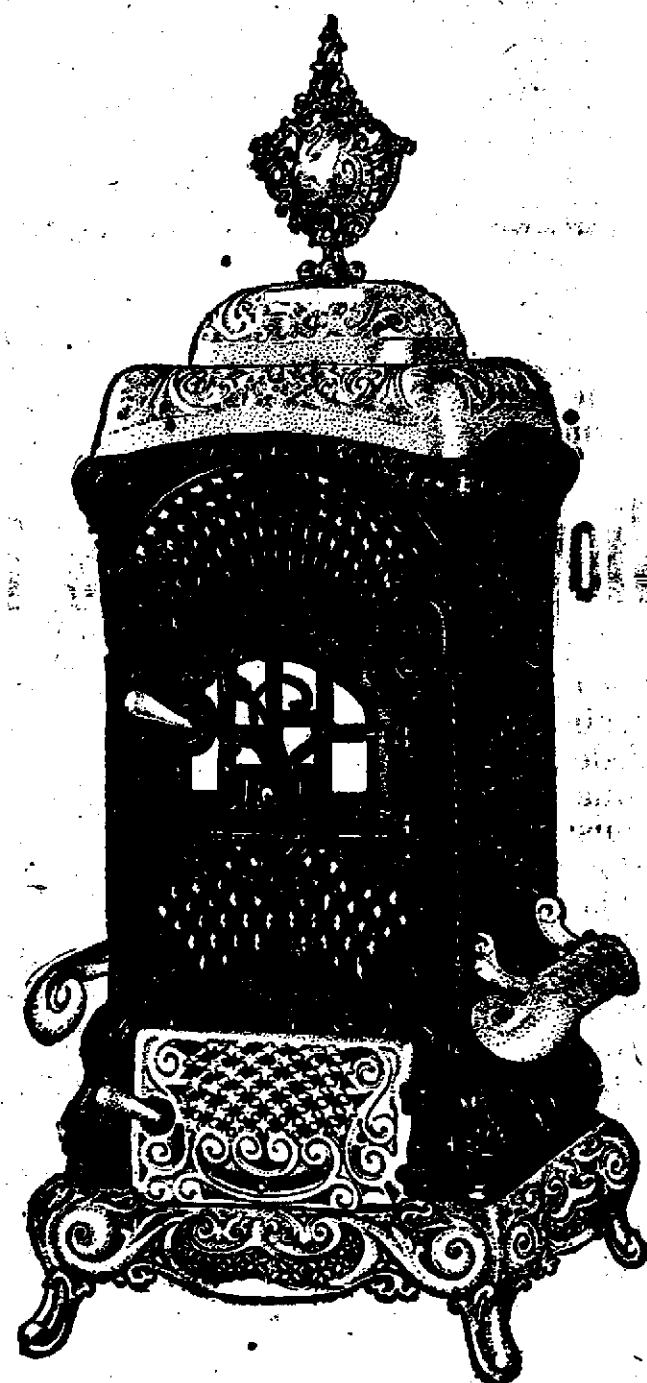

If your home is compact and your Coal Heater centrally located, it will heat as many as nine rooms. This is accomplished because of its furnace-like construction. A Fire Pot and Radiating surface within a perforated outer casing.

The slotted fire bowl will provide a third more heat. The side draft forces the coal to burn hottest next to its radiating surfaces. The superheated air that passes over the hot coals provides a perfect mixture, so that all escaping smoke and soot are burned, giving you a third more useable heat.

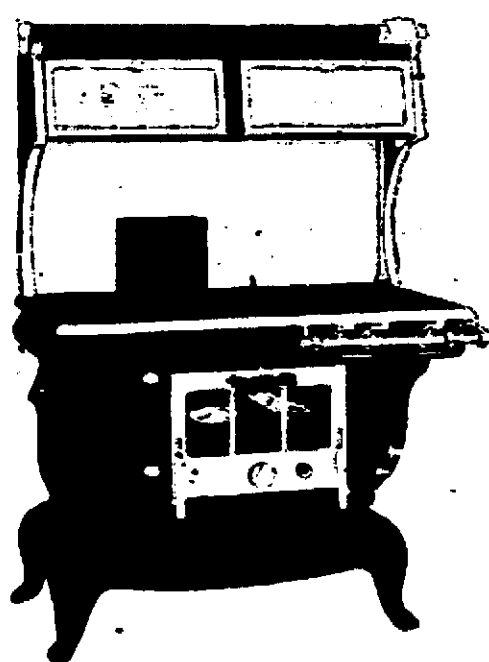

A Carlile Heater is easily cleaned, one blacking a year is all that is necessary. The outer casing being sufficiently removed to prevent its burning off.

Place your order for a Carlile Coal Heater tomorrow. Have it installed immediately. Divided Payments? Certainly. Choose the size you need and gain the benefits of its use right now. The first payment insures delivery. The prices range from

\$24.50 UP

Keep Your Kitchen Warm With a Combination Coal and Gas Range

You have already found it disastrous to depend upon gas. Zero weather means low pressure, no warmth or cooking facilities.

Our Combination Range provides dependability, and has all the heating advantages claimed for our heaters. They bake and cook perfectly. They have all the labor saving qualities of gas ranges for summer use or when the gas pressure is normal.

We carry a wide range of models, including the one illustrated. You can buy one on the divided payment plan and have it installed at once.

GLENWOOD GOLD MEDAL COMBINATION RANGES

Provide a very convenient combination. Four holes for Coal and four for Gas. In place of the usual warming closet it has a gas oven and a gas broiler. These combined give you the benefits of a gas table range.

The idea of two separate ovens, one for gas and one for coal is an ideal principle. Combined in one, you lose some of the advantages of each. Separate, and you have the fullest baking efficiency with either fuel.

A complete stock of direct Action ranges now on hand

James Wood asking that he be granted
a divorce from Anna Wood on the
ground of infidelity, the co-respondent
being named in the petition. He also
alleges that she has been guilty of gross
neglect in that she refused to cook or
care for their home since November 2,
and that on February 9 she abandoned
their home and went to Dresden.

Weather and the Death Rate.
The general death rate is found to
increase with rising temperature, and
to diminish with a falling thermome-
ter. These conclusions are reached
by Doctor Ellsworth Huntington of
Yale, and are a result of a study of
about 400,000 deaths in New York
city in connection with the weather
on the day of death. The peculiarities
seem to apply to all seasons. Variety
in the weather is healthful and stimu-
lating, and it is believed that some
variability is as essential as proper hu-
midity.

of the stems, lay it in a secret place.
Let youth dream through the night of
his sweetheart. Upon looking at it
the next day, if he find the stems
shot out to their former height, suc-
cess will attend; if not, disappoint-
ment.

Get Your Stomach Healthy and Stop Those Headaches

Many people nowadays are apt to use drugs for quick relief every time they
have an ache or pain. This is only temporary treatment and is bad for the system
generally. If persisted in it will lead to scores of complaints and even serious illness
that might have been avoided. Take the common complaint of constipation—every one
knows, or should know, that every dose of a cathartic gives relief only for the time
being, and in reality it aggravates the trouble. If you take cathartics continually you
are liable to have chronic constipation. It is the same way with stomach trouble, head-
aches, dizziness or liver and kidney disorders. If you have gas on the stomach or pains
after eating and take a pepsin tablet, bicarbonate of soda, charcoal, or what not, you
are only getting temporary relief. The same thing applies in curing a headache with
headache powders. As a matter of fact you are in a worse condition as soon as the
acute part of the attack is over.

Redex, the New Herbal Remedy, banishes constipation because it is mildly laxa-
tive and removes the cause—stomach trouble. It stops pain in the stomach and gas
belching because it drives away the catarrhal inflammation which is causing the trou-
ble. It stops headaches, dizziness, improves digestion and makes away with kidney
and liver trouble because it puts the body in a healthy condition and removes the cause.

Statements from Persons Who Have Used REDEX

**GOT QUICK RELIEF
AFTER FOUR YEARS
STOMACH MISERY**

"For the past four years I have suf-
fered from stomach trouble. After
eating I would have severe attacks
of indigestion. My food would sour
on my stomach causing gas to form
which was very unpleasant and ex-
tremely painful. Added to this, last
winter I had the influenza which left
me in a very weak and run-down con-
dition. I was also subject to nervous
headaches nearly all the time; fre-
quently I became so dizzy that I had
to sit down or catch hold of something
to prevent myself from falling. I tried
everything I could think of to help
me, but was unable to get relief.
I started taking Redex and it has
helped me wonderfully. I no longer
have any trouble with my stomach,
my food agrees with me, I eat heart-
ily and sleep well; my nervous condition
is much improved and I am gaining
strength every day. I have not felt
any dizziness since I took Redex. I
certainly feel grateful for the way it
has helped me and recommend it very
highly."

**BEST REMEDY I
EVER TRIED SAYS
MRS. J. B. SMITH**

Mrs. J. B. Smith, living at No. 11
South Cedar street, Newark, is highly
enthusiastic over her experience with
Redex, now being demonstrated at
Erman's Arcade Drug store. In a con-
versation with the Redex expert,
she said:
"Redex is a splendid medicine and
has helped me wonderfully. I am
feeling better now than I have for
the past two years, and I have tried
about everything that I could think
of. I am stronger and better able to
do my housework than I have been
for years. My chief troubles have
been with my stomach and severe
rheumatic pains in my arm and
shoulder; sometimes my fingers
would become very stiff and sore.
Nothing in the way of food tasted
good or seemed to agree with me.
I have been so weak and draggy that
I could hardly stand on my feet, let
alone work. Since I started taking
Redex several days ago, I feel like a
different woman. I did my own
washing this week, and my house-
work has been a pleasure to me. I
am stronger, eat well, with no bad
after-effects, am less nervous, and
am better in every way than I have
been for a long while back. My rheu-

**W. MAIN STREET
WOMAN PRAISES
NEW REMEDY**

Miss Ella Lemon, a popular and old
time resident of Newark, living at
27 1-2 West Main street, is a staunch
enthusiast of Redex. She says: "My
experience with Redex is certainly
very gratifying indeed. I was very
weak and nervous, had frequent head-
aches and felt very depressed. Was
very restless at night and could sleep
soundly. My appetite was very poor
and I lost all my desire for food. The
fire at the back of my rooms shook
up my nerves and further aggravated
my condition.
"I started to take Redex and it has
helped me splendidly. I have a keen
appetite, sleep well, and my nervous
condition has greatly improved. My
headaches have also disappeared and
I feel better than I have for months
past. I shall continue to take Redex
as it has been very helpful to me and
is a very fine medicine."

**HIGHLY PLEASED
WITH RESULTS OF
HER EXPERIENCE**

Mrs. John Gtenger, who lives at
116 South First street, Newark, is
another convert to the merits of Red-
ex, now being introduced here at
Erman's Arcade Drug store. In con-
versation with the Redex expert a
few days ago, she said: "Yes, I ge-
neral condition since I started to take
Redex."

"My chief trouble has been with
my stomach and I frequently had at-
tacks of indigestion which were more
or less distressing and painful. I
had very little appetite and had to
force myself to eat at meal-times. I
was physically run-down and in very
poor condition.
"Since using Redex I am not
troubled with indigestion and my ap-
petite is good. My condition is very
much improved and I am feeling
better in every way than formerly.
"I shall continue taking Redex as
it has helped me wonderfully. I feel
stronger and much more cheerful
since I have been taking it."

Save Money By Buying Your Coat NOW!

YOU will need a warm winter coat for the next two months at least, and on through the early spring there'll be many cool days when you will find occasion to use it. The prices at which we are now offering the winter coats which are still in stock will give you the chance of years to get a fine coat at a low price.

A WARM VELVET COAT FOR \$15.00

should appeal to every woman who wants a pretty coat for a small sum. These come in sizes ranging from 16 to 44 in various colors, including green, brown, grey and plum.

THINK OF BUYING A WARM WOOL COAT FOR \$16.67 OR \$19.33

These are coats that have been selling at \$25.00 and \$29.00, and among those still here are splendid styles in all colors, including black, blue, burgundy, dark grey, taupe, mahogany.

WARM WINTER COATS FOR CHILDREN AT \$7.50 EACH

These will make splendid school coats to finish out the winter and then be ready to start another winter. Sizes from 5 to 11 years, in fine wool coats in such colors as blue, brown and burgundy.

J. W. H. Mazy Company

(National Crop Improvement Service.) Red Durum wheat, known as "D3," put out some years ago, has been found to be a dismal failure on account of lack of milling quality.

There is much of it offered for sale this year for seed. It made a pretty fair crop and went through rust fairly well, but there was no market for it last year except the government, which took it because it was wheat. The millers did not want it, the macaroni men did not want it, so all that was left for it was to sell it at a big discount for grinding into chicken feed.

Beware of it. It is a positive menace. It is not a Durum nor a Pife, although crossed from them both. While it is called Red Durum, it should not be confused with Kubanka, Arnautka and other amber Durums which, while their market is limited, are excellent for macaroni, etc.

There is no market for so-called "rust proof" Durum wheat. Do not seed it under any circumstances. It is no good. It is not only worthless itself, but if it becomes mixed with your other grain it will ruin it.

GIRLS WILL PRESENT FRENCH MEMORIALS

Memorial services for the families of the men who were killed or who died in service, will be held at the Auditorium Sunday afternoon at 2 o'clock under the auspices of the American Legion. A number of local organizations, including the Rotary Club, Kiwanis Club, Federated clubs, Red Cross, War Work Council, American Legion and Boy Scouts have signified their intention of attending in a body in honor of the Newark dead.

The high school orchestra will play an overture and furnish the music for the occasion and the invocation will be delivered by Rev. Mr. Hanks. The address will be delivered by Major C. W. Montgomery. The girls' club of the high school will sing the Marcellus and a dialogue between Miss Frances Fitzgibbon representing America, and Miss Mary Winkle representing France will be given. The benediction will be given by Rev. Father O'Donovan. The committee has made every effort to locate the nearest of kin of those who made the supreme sacrifice and organizations and individuals are urged to submit the names of the nearest relatives of any men who were killed to Rev. B. R. Weld, Paul Henry or Walter Rogers of the Tribune.
